Twin Elms
SYRACUSE NEW YORK

A PLEASANT HOME ATMOSPHERE

Twin Elms was founded to meet the particular need for a private place up-state giving private, scientific and individualized treatment for acute recoverable mental disorders.

Eight years have established outstandingly that an aim for a homelike atmosphere as free from institutional mannerisms and restraints as is consistent with good care has been attained and with gratifying therapeutic results.

A competent personnel, experienced in our intensive individual personal kind of care, administers the various types of therapy including occupational therapy in a well equipped studio.

Insulin therapy for early schizophrenics is personally given by a physician trained with Dr. Sakel and with ample later experience in the method.

The physical plant affords refined comfort. Ten cases only are cared for at one time. Morphine and alcoholic addictions are treated in selected instances.

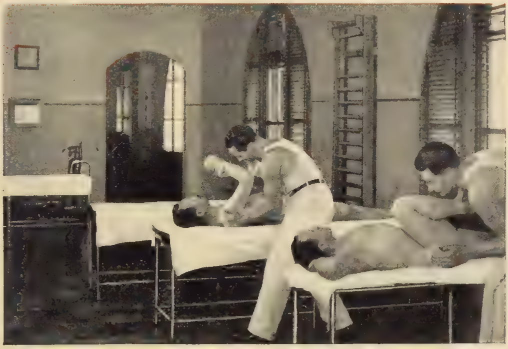
University of Rochester, School of Medicine and Dentistry, Rochester	Dean, George H. Whipple, M.D.

HE HEALTH ROO

for
"regular, moderate exercise"



. . . provides a most complete source for adults of sedentary occupations to obtain the exercises essential to maintaining physical strength and endurance.

. . . promotes the incentive for those who have recovered from an illness to restore and build up lost tissues and weight.

. . . maintains year-round facilities, including indoor and outdoor solariums, steam and electric baths, showers and Scotch douche, Swedish massage, play courts, and a completely equipped gymnasium for passive or constructive exercises under personally supervised instruction and when indicated, according to your prescribed routine for a particular patient.

The Health Roof is a distinctive institution, conveniently located and numbering among its members, many executives and professional people of refinement—yet the cost is reasonable.

Physicians are invited to inspect and try
the facilities — literature on request.

The Ambassador

Generations of medical men have recognized the important advantages offered by Atlantic City—especially its salubrious climate, its beauty, and its recreational facilities.

To these natural charms, the Hotel Ambassador adds the comfort and luxury of one of the country's finest resort hotels. You (or your patients) will richly profit in health and pleasure through a visit. Located directly on the Boardwalk, unobstructed view of ocean and beach. 675 large outside rooms . . . each with twin beds and bath. Indoor salt water swimming pool. Sun deck and solarium.

American and European Plans.

An OPEN LETTER *to the* GENERAL PRACTITIONER

As Family Physicians, you are guardians of the public's health, and, as general practitioners can do much to protect and conserve its vision.

When patients come to you suffering with eye conditions which call for an Eye Physician's treatment or refraction, advise consultation with an Ophthalmologist and direct the sufferer to one.

In case of any functional disturbance which may be the cause of eye-trouble, the patient will be referred back to the Family Doctor for further treatment.

Guild Opticians do not examine eyes. They realize the importance of a medical eye examination by an Eye Physician.

This is safer for the patient—it is sure to work out to your personal professional advantage and keeps the patient in the hands of the Medical Profession.

THE GUILD OF PRESCRIPTION OPTICIANS OF AMERICA

NEW JERSEY

(Pages 625 to 748 inclusive)

A SECOND YEAR in which we have collaborated with the Medical Societies of New York and Connecticut by compiling the essential data for the New Jersey section, finds many changes and corrections in the listings of physicians as well as the addition of new practitioners establishing residences in the State.

The total number of physicians registered in the State of New Jersey at the start of this year is 4,929—at the same date in 1937, it was 4,790.

We appreciate the cooperation of the State's physicians in reporting changes and corrections to be made in their listings which enabled us to make the data as informative and accurate as possible.

All communications pertaining to listings in the New Jersey section should be made direct to the Executive Offices of the Medical Society of New Jersey, Trenton, N. J.

GROUP ACCIDENT *and* HEALTH INSURANCE
Gives Greater Value

AVAILABLE ONLY TO SOCIETY MEMBERS

The advantages of the Group Plan —

★ Broader and more liberal coverage.
★ Non-cancellable as to any individual member.
★ Reasonable cost.

SOLD ONLY BY
ARTHUR W. EADE
185 CHURCH STREET
New Haven, Conn.

Guildcraft

THE GUARANTEE OF OPTICAL QUALITY

The high standards of workmanship and of service maintained by the members of this Guild is raising optical standards in general.

The Guild, in its efforts to educate the public to a better understanding of "The Safe Way"—the safe, scientific way which leads first to the Eye Physician, and then to the Guild Optician, has also educated the public to expect better workmanship and service.

The Guild is constantly working to bring patients and Eye Physicians together, enlarging the field of Ophthalmological science, improving the optical craft—and is constantly fighting the efforts of non-medical refractionists to effect legislation which encroaches upon the practice of Eye Physicians, and the business of ethical, dispensing opticians.

In Connecticut, as in other states, it supports such legislation as licensing dispensing opticians for the protection of the public, the Eye Physicians, and ethical opticians.

Safeguard your own interest, and those of your patients, by cooperating with this Guild and using Guild opticians only.

CONNECTICUT

(Pages 749 to 804 inclusive)

THE TOTAL PHYSICIANS in the State of Connecticut, listed in the following pages, is 2,221. This number last year was 2,117.

In assisting the Medical Society of the State of New York to publish a more complete Medical Directory, we appreciate the cooperation of the physicians of our State who have aided so materially in furnishing the essential data which had to be compiled for the Connecticut section. This cooperation alone makes it possible to furnish such complete and valuable data which is making this Directory a more useful source of reference for physicians of this State.

The reporting of changes or corrections as soon as they occur, by the physician concerned, is greatly appreciated, and prompt return of requests for verification of standing data as solicited prior to the publishing of revised editions is also appreciated.

Physicians of the State of Connecticut should communicate direct to the Executive Offices of the Connecticut State Medical Society in New Haven on all matters pertaining to this section of the Directory.
